Anglo-American Planning Talks: Iran

I note from paragraph 3 of the record of the Anglo-American Planning Talks distributed by Mr Crowe on 19 October that the Americans are reviewing State Department records on Iran for the years 1952-54 with a view to release under the Public Information Act; and that this could have damaging consequences for the UK as well as the Shah. I imagine we are looking into this. I should be grateful to be kept informed.
